

Rouen is celebrating the EU month of Creativity with the "Curieux Printemps" festival, running from the 10th to the 31st May, all over the city.

The festival follows several objectives: offering theatre and dance performances for the widest audience, promoting the local artistic scene (companies from Rouen and Normandy), getting out from traditional theatres and setting up performances in atypical, hybrid venues or public spaces.

This year, there will be around 30 shows staged in the municipal botanical gardens, libraries, churches, sports complexes and public spaces.
