

Activities in Regensburg for the Month of Creativity

Exhibition: Kunst & Spiel, M26

As part of the European CreArt 3.0 project, Regensburg is celebrating the so-called “Month of Creativity” in May – with events that focus on cultural education, participation and the promotion of artists. The M26 will of course be there too!

From May 2 to 8, 2025, the M26 will be transformed into an open space for art and play! Students from the Institute of Fine Arts and Aesthetic Education at the University of Regensburg from the Environmental and Product Design seminar cordially invite you to live out your own play instinct and discover your own creativity.

Everyone is welcome! Whether big or small, young or old, with or without artistic experience, with roots in Regensburg or elsewhere – everyone is welcome to join in, be amazed, try things out and simply be there. The Kunst & Spiel room is a place where people meet at eye level and create something new together.

Different workshops / events are part of the exhibition:

- 02.05.2025: workshop - wooden sculptures
- 03.05.2025: workshop - pen & paper
- 06.05.2025: workshop – text role play by Lu Sahnig
- 07.05.2025: board game evening

Exhibition: La m(is)ère, M26

Motherhood is a universal and timeless theme that has accompanied humanity since its beginnings. The exhibition la m(is)ère is dedicated to the role of women and/or mothers in society and sheds light on the facets and challenges that the participating artists face on a daily basis. The different artistic positions aim to raise awareness of the diverse roles of women, who often have to balance between the demands and social inequalities of family and professional life and their own needs. The exhibition is intended to address challenges and beauties and to question social expectations. Through our project, we want to contribute to an open, inclusive discussion about the various aspects of motherhood, conscious “non-motherhood” and the role as a woman and challenge existing clichés.

Picnic in the exhibition – for young and old (23.05.2025):

Between the artworks there's space to paint, do handicrafts, stick tattoos and get together. For families, friends, children, moms, dads – for everyone who wants a colorful afternoon.

La m(is)ère

10. — 28. Mai

Mutterschaft ist ein universelles und zeitloses Thema, das die Menschheit seit ihren Anfängen begleitet. Die Ausstellung widmet sich der Rolle der Frau und/oder Mutter in der Gesellschaft und beleuchtet die Facetten und Herausforderungen, denen die beteiligten Künstlerinnen tagtäglich begegnen.
